

UNLOCK THE FULL VALUE OF YOUR ORACLE TRANSFORMATION

**Enable your people. Accelerate adoption.
Maximise your Oracle investment.**

ORACLE TRAINING | DIGITAL ADOPTION | CONTINUOUS LEARNING

◆ THE ADOPTION CHALLENGE ◆

Many organisations invest heavily in Oracle ERP and HCM transformations, but struggle to ensure users adopt the system effectively.

Common challenges include:

- Innovation outpacing user adoption
- Redwood UX changes without structured enablement
- Quarterly updates creating change fatigue
- Manual workarounds due to lack of training
- Difficulty measuring learning effectiveness

Without the right training and adoption strategy, systems fail to deliver their full value.

HOW FUDGLEARN HELPS

TRAINING NEEDS ANALYSIS (TNA)

We assess your organisation, processes, and users to **design a scalable training and adoption strategy aligned with your Oracle programme.**

END-USER & SUPER-USER TRAINING

Tailored training across Oracle applications:

ERP | HCM | SCM | EPM | CX

DIGITAL ADOPTION WITH ORACLE GUIDED LEARNING (OGL)

Enable users inside Oracle while they work.

LEARNING CONTENT AUTOMATION WITH CLICKLEARN

Accelerate the creation of learning materials and documentation.

- Process recordings
- Step-by-step guides
- Training videos
- Release enablement

OUR 3-STEP METHOD

ANALYSE

Training Needs Analysis to understand processes, roles, and learning gaps

DESIGN

Define a tailored training and adoption strategy

ENABLE

Deliver training, digital adoption, and ongoing learning support

◆ CONTINUOUS IMPROVEMENT ◆

● Oracle systems evolve constantly.

● We help organisations sustain adoption through:

• Quarterly update training

• Continuous learning strategies

• Redwood change readiness

• Adoption analytics

AI ◆ *People* ◆ *Process*

Successful transformation happens when
technology, processes, and people work together effectively.

RESOURCES, INSIGHTS & REAL-WORLD IMPACT
